

Reimbursement Analyst II

Salary Group: B23

Class Code: 1256

<u>CLASS TITLE</u>	<u>CLASS CODE</u>	<u>SALARY GROUP</u>	<u>SALARY RANGE</u>
REIMBURSEMENT ANALYST I	1255	B21	\$48,278 - \$78,953
REIMBURSEMENT ANALYST II	1256	B23	\$55,184 - \$90,393
REIMBURSEMENT ANALYST III	1257	B25	\$63,104 - \$103,491

GENERAL DESCRIPTION

Performs advanced (senior-level) rate analysis work of reimbursement payment rates and pricing. Work includes coordinating, developing, and implementing data analysis to determine and evaluate payment rates; coordinating the collection of statistical and cost data; and coordinating the planning, development, and presentation of recommendations and reports. May supervise the work of others. Works under minimal supervision, with considerable latitude for the use of initiative and independent judgment.

EXAMPLES OF WORK PERFORMED

Coordinates, develops, and implements data analysis using standard statistical tools, methods, and techniques to determine payment rates and pricing for various agency programs; and interprets results to identify significant differences in data.

Coordinates, designs, and conducts special cost and statistical research and analysis to evaluate the feasibility and cost implications regarding payment rate structure options, new program initiatives or enhancements, special payment rate initiatives, and new regulations.

Coordinates, develops, and conducts surveys to collect cost data from contracted providers for use in payment analysis.

Develops, implements, and maintains rate methodologies and rate calculations.

Develops and processes policy documents relating to payment rate and methodology determination.

Evaluates statistical methods and procedures used to obtain data to ensure validity, applicability, efficiency, and accuracy.

Designs cost data collection instruments and detailed instruction manuals to collect cost data from contracted providers for use in payment rate analysis.

Identifies and evaluates economic factors related to reimbursement rates and pricing.

Plans, coordinates, and conducts economic studies and analyses; and prepares economic reports.

Communicates and interfaces with internal and external parties to provide technical guidance and resolve problems concerning reimbursement rates or payments; payment rate methodology; payment rate determination; cost survey completion; and policy, guidelines, and rule requirements.

Ensures compliance with established procedures, requirements, laws, and regulations.

Participates in public meetings, and records and summarizes public testimony regarding proposed rates or proposed reimbursements for programs.

May supervise the work of others.

Performs related work as assigned.

GENERAL QUALIFICATION GUIDELINES

EXPERIENCE AND EDUCATION

Experience in developing, compiling, analyzing, and interpreting statistical data for rate analysis. Graduation from an accredited four-year college or university with major coursework in accounting, business administration, finance, economics, statistics, or a related field is generally preferred. Experience and education may be substituted for one another.

KNOWLEDGE, SKILLS, AND ABILITIES

Knowledge of accounting, budget control, and management methods, policies, and procedures; laws, rules, and regulations governing reimbursement and public administration; reimbursement methods and payment fees, formulas, rates, pricing, and procedures; statistical analysis processes and research techniques; and report writing.

Skill in the development, implementation, and application of reimbursement methodologies and payment rates; analyzing complex data; critical thinking; and the use of a computer and applicable software.

Ability to compile, review, and analyze data; to devise solutions to problems; to evaluate and interpret policies and procedures; to prepare reports; to meet deadlines; to manage projects; to communicate effectively; and to supervise the work of others.
