

# Boiler Inspector III

Salary Group: B22

Class Code: 1317

<u>CLASS TITLE</u>	<u>CLASS CODE</u>	<u>SALARY GROUP</u>	<u>SALARY RANGE</u>
BOILER INSPECTOR I	1315	B20	\$45,158 - \$73,788
BOILER INSPECTOR II	1316	B21	\$48,278 - \$78,953
<b>BOILER INSPECTOR III</b>	<b>1317</b>	<b>B22</b>	<b>\$51,614 - \$84,479</b>

## GENERAL DESCRIPTION

Performs advanced and/or supervisory (senior-level) boiler inspection work. Work involves overseeing the inspection of boilers and pressure vessels for compliance with state laws, rules, and regulations; and approving corrective action for noncompliance. May supervise the work of others. Works under minimal supervision, with extensive latitude for the use of initiative and independent judgment.

## EXAMPLES OF WORK PERFORMED

Oversees the inspection of boilers, pressure vessels, and accessories for compliance with laws, codes, rules, and regulations; and ensures quality control and compliance with safety standards.

Oversees incident and accident investigations, including establishing the priorities and methods of securing evidence.

Reviews records, reports, and schedules.

Authorizes repairs and alterations to boilers and pressure vessels.

Provides consultation and technical guidance to agency staff, building and facility owners, and inspectors by interpreting codes, rules, and regulations; promoting safety and assurance programs; and/or resolving compliance problems and disputes.

Makes presentations to and serves as a liaison between local, state, and federal agencies to facilitate program administration.

Testifies at hearings or before courts.

May supervise the work of others.

Performs related work as assigned.

## **GENERAL QUALIFICATION GUIDELINES**

### **EXPERIENCE AND EDUCATION**

Experience in construction, installation, inspection, operation, and maintenance or repair of boilers. Graduation from a standard senior high school or equivalent is generally preferred. Experience and education may be substituted for one another.

### **KNOWLEDGE, SKILLS, AND ABILITIES**

Knowledge of state laws, codes, rules, and regulations related to the use, construction, installation, and repair of boilers.

Skill in the operation of technical equipment and detection devices, in the operation of high- and low-pressure boilers, and in analyzing and interpreting data.

Ability to oversee inspections, to communicate effectively, and to supervise the work of others.

### **REGISTRATION, CERTIFICATION, OR LICENSURE**

May require licensure as a Texas Boiler Inspector.

Must possess a valid driver's license.
