### GENERAL DESCRIPTION

Performs complex (journey-level) public health work. Work involves planning and developing public health education program activities and providing assistance to program staff, governmental agencies, and community organizations. May provide guidance to others. Works under general supervision, with moderate latitude for the use of initiative and independent judgment.

### EXAMPLES OF WORK PERFORMED

Confers with local health agencies, private physicians, individuals, and community action groups on the treatment, control, or prevention of communicable and chronic diseases.

Participates in planning and conducting public health training courses.

Serves as a resource in creating awareness of public health problems and public health education programs.

Collects data for use in planning and evaluating the effectiveness of public health education programs.

Distributes information on public health and health education programs.

Assists in formulating definitions, standards, and policies for the effective and efficient rendering of public health services and the enforcement of public health laws and regulations.

Assists in collecting and preparing materials in response to public health information requests.

May provide guidance to others.

Performs related work as assigned.

## **GENERAL QUALIFICATION GUIDELINES**

### **EXPERIENCE AND EDUCATION**

Experience in public health work. Graduation from an accredited four-year college or university with coursework in social services, public health, or a related field is generally preferred. Experience and education may be substituted for one another.

### **KNOWLEDGE, SKILLS, AND ABILITIES**

Knowledge of social, economic, and public health issues; public health laws and regulations; and medical terminology.

Skill in the use of a computer and applicable software.

Ability to interpret public health laws and regulations, to analyze and evaluate public health needs, to provide guidance to others, and to communicate effectively.
